Best

Half of family physicians in AB receive a report. Most of them receive a proxy report.

Questions to ask...

1. Do you support a family physician live on CII / CPAR?
2. Does that physician receive a panel report?
 - If yes, and a CPL -> support with report review
 - If yes, and a proxy -> update contact info on request site to receive a CPL
 - If no, share a sample report and the info sheet

Use panel reports for PIPP requirement

Practice-Driven Quality Improvement Action Plan Template

1. What is the opportunity or gap? *CRC screening rates of 65% compared to average of 75% in my PCN as reported on my HQCA panel report and EMR.*
2. What is the SMART goal? *Improve CRC screening rates to PCN average over the next year.*
3. Who will lead the change? *The physician and practice facilitator will lead the change.*
4. Who will help implement the change and how will they need help? *Nursing staff and MOAs. Practice facilitator may help with patient identification.*
5. How will you identify the root causes of the issue? *Barriers to completing FIT testing include picking up the kit from the lab, interacting with stool, dropping the kit off at the lab.*
6. Considering root causes, what is a potential intervention which may be tested to improve the challenge you are facing? *Providing FIT test kits in my office could reduce the barrier of picking up the kit from the lab.*
