Session Highlights & Themes:

If you are a CII / CPAR participating physician and would like to upgrade your HQCA proxy panel report to a Confirmed Patient List (CPL) report, follow these steps:

1. Visit request.hqca.ca
2. Select family physician (for requestor)
3. Select physician CPL report (for type of report)
4. Fill in your contact information (name, email, number, PRAC ID and PCN)
5. Check off “enroll me” if you’d like to receive your CPL automatically in future years
6. Optional: add a delegate (a delegate is a member of your team you want to share your report with)
7. Select submit. You will receive your report in two weeks.

Myth busting:

- Connect Care will NOT replace Alberta Netcare
- CII/CPAR eNotifications are different from Connect Care Summative Notes

Connect Care Summative Notes	CII/CPAR eNotifications	What This Means
<ul style="list-style-type: none"> Delivered to the provider the patient identifies on admission Sent from Connect Care enabled facilities only. 	<ul style="list-style-type: none"> Sent to the Primary Provider that is identified in CPAR Sent from AHS facilities on both Connect Care and non-Connect Care systems anywhere in the province Delivered automatically 	<ul style="list-style-type: none"> The recipient of an eNotification for a patient event may or may not also be the recipient of a Summative Note for the same event. The CPAR Provider may not be the same as the Primary Care Provider identified by the patient. If a patient goes to a non-Connect Care facility, the CPAR Provider receives an eNotification but NOT a Summative Note.
