| Resource/Service | Communities |
|------------------------|--|
| | Grande Prairie |
| Physicians Prescribing | There are approximately 7-10 family physicians prescribing OAT in our community. A Nurse Practitioner at ACT Medical clinic also prescribes. |
| ODP Clinic | <p>Clients can self-refer or be referred by their family physician (see attached referral form). The ODP clinic provides services to clients such as prescribing OAT (methadone, suboxone) and Kadian, supporting with counselling and treatment plans, connecting to other programs and services, consulting with healthcare providers and working with clients to set and reach goals. The program is for anyone who is addicted to or dependent on opioids. Currently patients are sent back to their family physician for other prescriptions, and the ODP clinic will continue to prescribe the OAT. This may change now that suboxone does not require a triplicate, but there have been no set changes made yet. Please see attached forms with additional information on the ODP clinic.</p> <p>Northern Addiction Centre-11333-106 Street Grande Prairie 780-833-4991 main line to clinic Monday-Friday 8:00am to 4:00pm</p> <p>ACT Medical Clinic also prescribes OAT. Clients can self-refer or be referred by their family physician. ACT Medical uses a harm reduction approach. Services are covered by Alberta Health. 10405 102 Street, Grande Prairie, Alberta T8V 2W5 1 (587) 259-2681 1 (587) 259-1248 info@actmedical.ca</p> |
| Pharmacy | Please see attached list of pharmacies and if they dispense OAT and Naloxone kits. |
| Emergency Department | Our ED currently follows the RATS protocol. |
