PURPOSE:
Consider what you learned from peers and others about scaling PMH, and how to incorporate aspects into your own PCN work

• Think, write, share format
• Listen for the ‘bell’!
• Video
• Name
• Role
• City/town
• PCN/organization

• What’s one thing you’d like to see go to scale in the world?
What is one idea or concept about scaling the PMH that stood out to you today? Why?

Which of the ‘5 Principles for Scaling Up’ apply? How?

Could your PCN (or a PCN you work with) implement it? How would it need to be adapted?
What impact would it have on patients and/or members if you were able to successfully action this in your PCN?

How would it impact your PMH scaling results?
Think | Write | Share

What are 2-3 next steps you could take toward making this a reality?

Consider:

• Who do you need to inform or engage?
• What supports do you need?
• What barriers do you anticipate? How could you manage them?
• What do you have working in your favour?
• When will you do this by?
