**Albertans have a**  
Community Encounter Digest (CED) in their Alberta Netcare record

“ Studies have shown that, continuity of care is the single most important intervention that when offered to patients through timely access, can reduce mortality by up to 50%. As enablers of continuity of care, CII-CPAR and eNotifications are in my opinion, the best things that have happened to Primary Care in Alberta ”

*Dr. Joseph Ojedokun, Family Physician, Whitecourt*

**654,605**

Patients submitted to a CPAR panel

“ Having information in one central repository is essential to continuity of care outcomes on a broader scale. It is heart breaking when problems are caused by lack of adequate information sharing. I'm delighted to see CII addressing the gap. ”

*Dr. Steve Tilley  
Cardiologist, Healthy Heart Institute, Red Deer, AB*

- Expected for QHR Accuro in 2021

**12.6**

Average # of e-Notifications per 7 days (week) per 1000 patients on panel

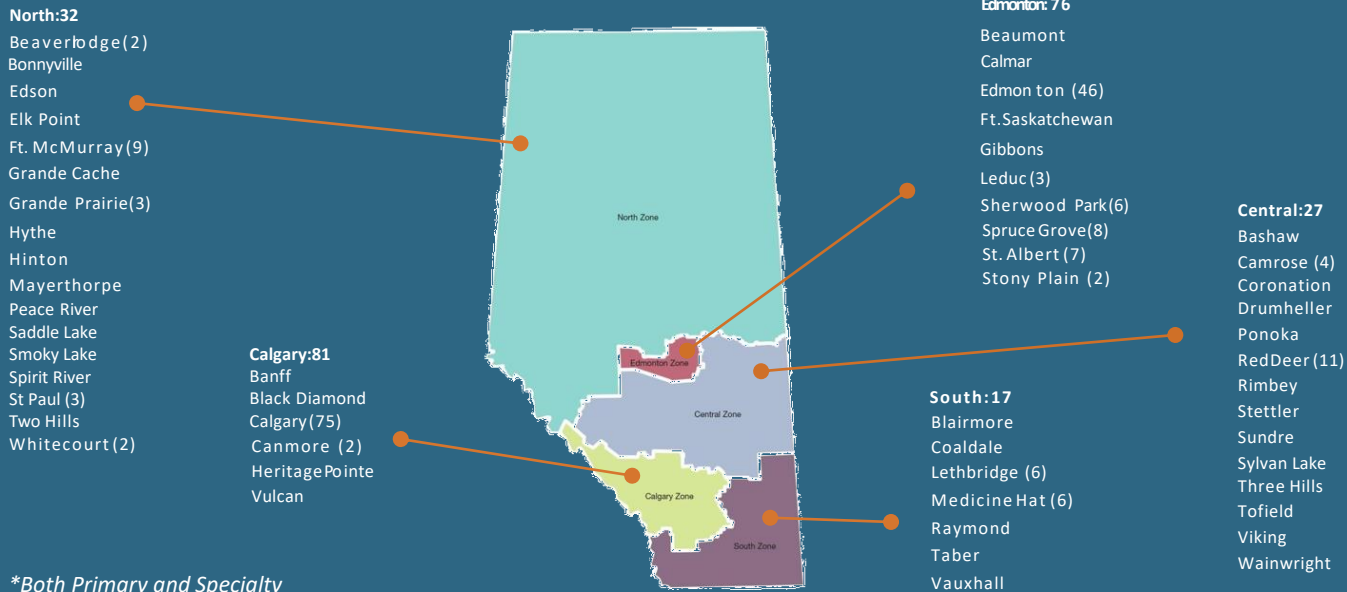

**233**

**LIVE CLINICS**

“ Patients feel like we're being very proactive about their care when we reach out to them post-discharge. They often think that I'm going above and beyond the call of duty, and I really feel now I am finally able to properly do my job and to quarterback their care. ”

*Dr. Heather LaBorde, Family Physician, Calgary*

**HQCA ON-BOARDED SURVEY DATA**

From Aug 2019 report

**93%**

Are comfortable sharing information with other health care providers

**93%**

Are comfortable sharing information with Alberta Health for the purposes of planning and QI

**93%**

Agree or strongly agreed that the sharing of information through CII/CPAR will lead to better patient care

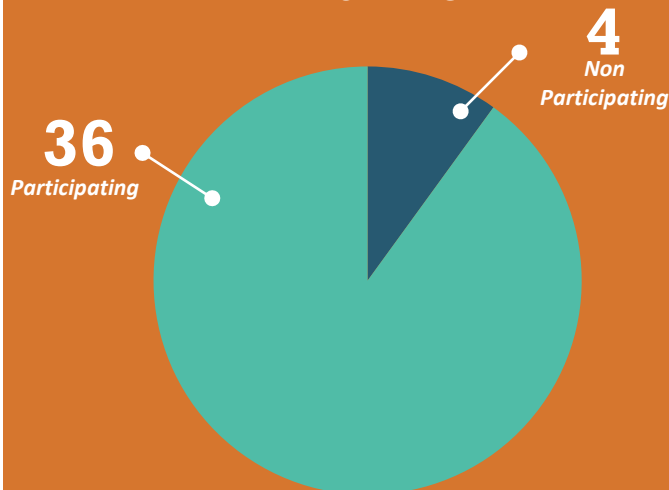

**86%**

"I am glad we made the decision to participate in CII/CPAR"

**72%**

"Are encouraging their colleagues to participate in CII/CPAR"

**NUMBER OF PCNS WITH CLINICS PARTICIPATING**

“ The strength of CII comes very much into what happens when patients become unwell and attend the emergency room. The emergency room physicians immediately know who is involved in a patient’s care and who to contact ”

**Dr. Bertus Eksteen, Gastroenterologist, Calgary**
