CFPC Exercise Questions

Practice Audits and Quality Assurance Programs

- Describe the nature of the practice to which this audit/program applies. State whether it is your own or others' practice.
- Who was involved? What was your role? How many hours did you spend personally in this process?
- What was the origin of, or reason for, the audit/program?
- For the purpose of this exercise, what specific question and/or learning objective did you formulate for your own practice?
- Briefly describe the audit/program. How were the criteria, standards, and/or interventions selected? How were the records selected?
- How was the data collected, recorded and analyzed?
- Briefly describe the findings of the audit/program.
- What kind of information and/or evidence was used to support the interventions and how was it obtained?
- What was your assessment of the quality of this information? Describe its validity and relevance. What approach or tools did you use to come to this conclusion?
- Based on what you learned, what decisions have you made about your question and/or learning objective as it pertains to your own practice?
- What will you have to do to integrate these decisions into your practice? What kinds of barriers or difficulties do you foresee?
- After sufficient time has passed to evaluate or reflect on the impact of your decisions, describe your reflections on the impact this process has had on your own practice and/or work?

Provincial Practice Review and Enhancement Programs

- Describe the nature of the practice to which this audit/program applies.
- How many hours did you spend personally in the process?
- What was your specific question and/or learning objective on which you based this exercise?
- Describe the assessment process. What kind of information/feedback did you receive that applied to your question and/or learning objective?
- What source(s) of information or evidence did you seek to understand better the question and/or learning objective?
- What was your assessment of the quality of the information you obtained from the assessment and the other sources you sought? Describe its validity and relevance.
- What approach or tools did you use to come to this conclusion?
- Based on what you have learned, what decisions have you made about your practice and/or work?
- What will you have to do to integrate these decisions into your practice? What kinds of barriers or difficulties do you foresee?
- After sufficient time has passed to evaluate or reflect on the impact of your decisions, what is the impact on your practice and/or work?

Linking Learning to Practice

- Describe the nature of your practice and/or work to which this exercise applies.
- What was your specific question and/or learning objective on which you based this exercise?
- Describe the activity which stimulated this exercise (including where and when) and the kind of information obtained from it.
- What other source(s) of information or evidence did you seek to understand better the question and/or learning objective?
- What was your assessment of the quality of information you reviewed? Describe its validity and relevance.
- What approach or tools did you use to come to this conclusion?

- Based on what you have learned, what decisions have you made about your practice and/or work?
- What must you do to integrate these decisions into your practice and/or work? What kinds of barriers/difficulties do you foresee?
- After evaluating/reflecting on the impact of your decisions, describe your reflections on the impact this process has had on your practice and/or work.

Pearls

- What is your specific practice-based clinical question?
- What triggered this question?
- Who did the literature search?
- What MeSH (Medical Subject Headings) terms or keywords used to facilitate your literature search?
- How many articles did this yield?
- List the articles you reviewed and indicate whether the results and/or recommendations are valid or relevant to your practice?
- Based on what you have learned so far, what decision(s) have you made about your practice?
- What step(s) will you need to take to integrate this decision into your practice? How many hours have you spent to date on this?
- After enough time has passed to evaluate the impact of your decision:
- What impact has the decision made and implemented had on your practice?
- How successful have you been in implementing the aforementioned decision in your practice?
- Describe any key successes, challenges and/or outline any further changes you plan to make as a result of completing this exercise.
