

Your health care team is participating in Alberta Health's Community Information Integration (CII) / Central Patient Attachment Registry (CPAR) initiative as part of Alberta Netcare

We collect your health information and enter it into our electronic medical record system to provide you with diagnostic, treatment and care services.

We share a limited amount of your health information from our system with Alberta Health.

Alberta Health makes your health information available to authorized health care providers through Alberta Netcare (the provincial electronic health record system) so the right information is available to the right people at the right time.

The purpose of sharing this information is to provide you with the best care possible and to continually improve our health system. The collection of your health information for these purposes is authorized by sections 20 and 21 of the *Health Information Act*.

If you have any questions about the collection, use and disclosure of your health information, please talk to one of the staff or contact the clinic privacy officer.
